

Phil Laubner/CRS

Climate change. Human trafficking. Migration. The world is facing some of its most serious challenges ever. Just as humanity has contributed to these problems, we have a shared responsibility to help solve them.

*“Be active members!
Go on the offensive!
Play down the field,
build a better world,
a world of brothers
and sisters, a world
of justice, of love, of
peace, of fraternity,
of solidarity.”*

– Pope Francis

STAND WITH THE MOST VULNERABLE

The poor and vulnerable are hit the hardest by today’s most pressing environmental and humanitarian issues. They do not have the resources to adapt to harsher climates or safely flee the violence of war. They are easy targets for human trafficking. By confronting these issues, we’re standing in solidarity with our global neighbors.

PROTECT OUR COMMON HOME

From rising sea levels to crop losses, the effects of climate change are all around us. As some of the biggest contributors to global warming, wealthier nations need to limit greenhouse gas emissions and help people in the developing world adapt.

HELP STOP HUMAN TRAFFICKING

Twenty-one million people are victims of human trafficking. Lured by the promise of work, abducted and sometimes sold by their families, these modern-day slaves are forced to work or engage in commercial sex against their will. In addition to rescuing the victims, we must expose the infrastructure that supports these practices. [#iamhumantrafficking](#)

SUPPORT REFUGEES AND DISPLACED PEOPLE

There are more refugees and displaced people worldwide than ever before—and half of them are children. The more you learn about this crisis, the more you’ll understand its causes and the need for a long-term solution. In the short-term, we can help provide assistance to the 60 million people with no place to call home. [#iammigration](#)
